Tsunami PRO

Designed to exceed expectations, the Tsunami Pro has many added features. The metal chain guard, integrated sweat hood and large bottom bracket shell are designed to provide years of durability. Quick Release handles are user-friendly. Large oval tubing combined with a low step-over height provides excellent stability.

features

Fore & Aft Handlebars

Allows for the ability to adjust the bike geometry for a more comfortable workout.

Stable Frame

Made with large oval tubing, excellent stability and 350 lb. user weight.

Frame Guard

Plastic cover protects the frame from scratches in a heavy usage area.

Large Bottom Bracket Shell

Shell has been oversized to 5 mm to improve bearing life.

Quick Release Adjustments

Provides quick and solid adjustments while allowing for micro adjustments of the seatpost and handlebar.

Sweat Hoods

Built into the frame to protect the flywheel and brake assembly from corrosive sweat.

Low Step-Over Height

Enables easier mounting as compared to x- or y-frames.

Metal Chain Guard

Provides durability in a heavy usage area of the cycle.

Heavy Flywheel

50 lb. flywheel is heavy enough to prevent the “runaway effect” seen on cycles with lighter flywheels.

Corrosion Resistance

Upgraded our seat post and handlebar assemblies to Stainless Steel which is stronger and more durable than other plating methods.

Commercial Warranty

10 years on frame; 3 years on parts; 1 year on wear items and labor.

*Please refer to www.watersfitness.com or the Owner’s Manual for complete warranty details.
