

Tsunami ULTRA

Experience the “Ultra” best in Indoor Cycling. The Tsunami Ultra combines an indexed magnetic system with a drive belt to provide 20 levels of smooth, quiet and repeatable resistance. It is built on the same durable frame as the Tsunami Pro with large oval tubing and a low step-over height. Bike specific geometry and a flywheel safely built into the frame assure comfort and stability.

features

Fore & Aft Handlebars

Allows for the ability to adjust the bike geometry for a more comfortable workout.

Stable Frame

Made with large oval tubing, excellent stability and 350 lb. user weight.

Frame Guard

Plastic cover protects the frame from scratches in a heavy usage area.

Large Bottom Bracket Shell

Shell has been oversized to 5 mm to improve bearing life.

Quick Release Ratchet System

Provides quick and solid adjustments allowing for small adjustments of the seat post and handlebar.

Sweat Hoods

Built into the frame to protect the flywheel and brake assembly from corrosive sweat.

Low Step-Over Height

Enables easier mounting as compared to x- or y-frames.

Indexed Magnetic Resistance

Accommodates 20 levels of smooth and quiet magnetic resistance with no parts to wear out on our friction-free braking system.

Metal Belt Guard

Provides durability in a heavy usage area of the cycle.

Corrosion Resistance

Upgraded our seat post and handlebar to aluminum which will not rust in the “sweat factories” we refer to as Indoor Cycling Studios.

Commercial Warranty

10 years on frame; 3 years on parts; 1 year on wear items and labor.

*Please refer to www.watersfitness.com or the Owner's Manual for complete warranty details.
